GroovJoint™ Begins Its Next Chapter with ASC Engineered Solutions

Green Bay, WI | July 1, 2026

GroovJoint™, a trusted name in stainless steel grooved, press, and fabricated piping systems, is proud to announce it has joined ASC Engineered Solutions, a leading provider of engineered flow management solutions serving the mechanical, plumbing, HVAC, fire protection, industrial, and construction markets.

This milestone marks an exciting new chapter for the GroovJoint brand, creating new opportunities to better serve customers through expanded resources, enhanced capabilities, and long-term investment while continuing the quality, technical expertise, and customer service that have defined GroovJoint for more than 20 years.

Most importantly, customers should expect business as usual. Existing customer contacts, ordering processes, product offerings, service teams, and support structures remain unchanged.

"Joining ASC represents an exciting opportunity for the GroovJoint brand, our employees, and our customers," said Jerry Novickis President of GroovJoint. "ASC shares our commitment to quality, innovation, customer service, and an American-made foundation. This partnership allows us to build on the strong foundation we've created while providing additional resources that will help us continue to innovate, grow, and better serve our customers."

As part of ASC's portfolio of trusted brands, GroovJoint gains access to expanded manufacturing, engineering, supply chain, and operational resources that will strengthen our ability to support customers today while creating new opportunities for future growth.

Together, GroovJoint and ASC are committed to delivering industry-leading stainless steel piping solutions, technical expertise, and dependable service for years to come.

About GroovJoint

Founded in 2003, GroovJoint has become a trusted name in stainless steel grooved, press, and fabricated piping solutions, serving a broad range of commercial, industrial, and process applications. Known for its expertise in corrosion-resistant piping systems, GroovJoint delivers high-quality products engineered to support mechanical, plumbing, HVAC, fire protection, water treatment, food and beverage, and other demanding markets. Built on an American-made foundation, technical innovation, and customer service, GroovJoint helps contractors, engineers, fabricators, and distributors solve complex piping challenges with confidence.

About ASC Engineered Solutions

ASC connects high-quality products with advanced technology, service, and support. With nearly 2,000 employees, the company's extensive portfolio of precision-engineered piping supports, valves and connections provides products to more than 4,000 customers across industries, such as commercial and residential construction, industrial, fire protection, and oil and gas. Its portfolio of leading brands includes ABZ Valve®, AFCON®, Anvil®, Anvil EPS, Basic-PSA, Beck®, Catawissa, Cooplet®, FlexHead®, FPPI®, Gruvlok®, J.B. Smith, Merit®, NAP®, Quadrant®, SCI®, Sharpe®, SPF®, SprinkFLEX®, Trenton Pipe, and VEP. With headquarters in Oak Brook, IL, ASC also has ISO 9001:2015 certified production facilities in PA, TN, IL, TX, AL, KS, and RI. www.asc-es.com
